

Tallo for Secondary Education

Tallo helps educators connect students with career exploration, skill-building courses, colleges, and job opportunities.

Why should students join Tallo?

Tallo is an all-in-one platform for career exploration, skill development, college discovery, and job searching. From exploring passions to securing first jobs, internships, or college admissions, we guide students every step of the way.

On Tallo, your students can:

Explore and discover career paths.

Students can explore 1800 diverse career paths that match their unique skills and interests.

Take courses and earn certifications.

Access over 134,000 courses through Tallo. Students can enhance their skills and earn certifications to boost their resumes.

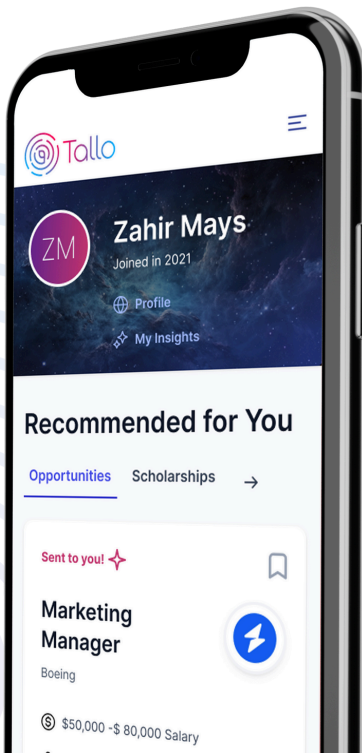

Connect with colleges and get job-ready.

Build digital profiles to get discovered by colleges and companies. Recruiters can find students and share relevant opportunities.

Land dream jobs or college placements.

Connect with employers and colleges, explore and apply for over 515,000 entry-level jobs & internships, and turn aspirations into reality.

Using Tallo at your school.

Tallo helps students, grades 8-12, build professional digital portfolios, discover meaningful career pathways, and make career and educational connections earlier.

Schools and organizations use Tallo to mentor students as they develop their career interests, and to stay connected to them once they move on to their next step, whether that's college or the workforce.

School accounts assist with longitudinal tracking, provide access to student profiles for guidance and support, allow promotion of opportunities, and showcase analytics on student involvement and interests.

Educators on Tallo

Tallo is where your students can share their accomplishments, and educators can guide them. Help your students create paths for the future while meeting college and career readiness requirements.

1

Access analytical data to understand your students' interests, career aspirations, and college preferences.

2

View longitudinal data—follow your students' progress long after they've left the classroom.

3

Utilize custom classroom resources and access to Tallo's career exploration and assessment platform.
